

Elite Essentials Solvent Pearl Stoplight - 225gsm

Product Data Sheet

Product Type: Polyester film for solvent inkjet printing

Appearance: White

Surface Finish: Gloss printable coating one side, antistatic grey lightblock reverse

Thickness: 155mic/225gsm

CIE Coordinates: L = 98, A = 1.5, B = -8

Compatibility: Eco-solvent type inks for Seiko ColorPainter, Epson Stylus Pro GS6000, Roland Soljet, Mutoh Rockhopper. Solvent inks for Grenadier, Vutek etc

Applications & Characteristics:

- Stable, durable, no-curl pop-up graphic material
- High gloss surface with excellent ink adhesion, scuff and water resistance
- Bright white front, but lightblocking antistatic grey back for greater than 98% opacity against rear light
- Ideal for pop-up displays and applications requiring light blocking performance

Recommended conditions for use: 10-30deg C, 30-70% RH

Recommended conditions for storage: 10-30deg C, 20-50% RH

Material handling and shelf life: 18 months from date of manufacture
