

Graphic Arts Chemicals: 4th & 5th Generation

Novotech Developer & Replenisher is a single solution liquid concentrate for the machine processing of graphic arts 4th & 5th generation rapid access films.

- Ideal developer for 4th & 5th generation emulsions
- Suitable for the rapid access processing of 2nd generation line, screen, daylight and typesetting materials
- Highly stable and long working life
- Very clean working
- Wide latitude in development time, temperature and replenishment

Novotech Developer & Repl.	5gal	G2-659-A05
Grafix Fixer & Replenisher	5gal	G3-711-A05
Grafix Hardener	4x4L	G3-712-L16
Developer Tank Cleaner	T/M 2x20L	G4-013-K06

PROCESS SPECIFICATIONS

1. Machine Use for 4th & 5th Generation Films and Intermixes

Dilution of Novotech Developer & Replenisher	Processing Conditions		Replenishment Rate* (ml/sq metre)
	Temp	Time (Sec)	
1+2	35°C ± 3°C 95°F ± 5°F	30 ± 15	400 ±

* recommended starting point

2. 2nd Generation Rapid Access Materials only

Application	Dilution of Novotech Developer & Replenisher	Processing Conditions		Replenishment Rate (ml/sq metre)
		Temp	Time (sec)	
Film & Paper	1 + 4	35°C ± 3°C	35°C ± 15°C 95°F ± 5°F	400 ±
