Light boxes

Quasar

Description

Combining stylish design and high performance, the Quasar range of lightboxes has been produced to exacting standards in components, construction and lighting for a practical and good looking solution to all your viewing needs.

The Quasar is made from a lightweight aluminium extrusion, with carry handle on A4 and A2 sizes. The curved upper profile and flush fitting screen aid comfortable working without snagging or creasing of working material.

All Quasar lightboxes have a stylish 'silver hammer' finish with 'aqua' colour body striping.

Specification

Model	Order Code	Screen Size	Price GBP Sterling
Qup/A4	VB101	234mm x 305mm	180.00
Qug/A4	VB102	234mm x 305mm	190.00
